Natural Classic (WTG)

reinforced swimming pond membrane

Natural Classic is a reinforced swimming pond membrane for lining swimming ponds or natural pools. The membrane is extremely durable and highly resistant to all loads. Produced from the purest raw materials, together with **Natural PEARL/Natural SUPRA** it is the health-friendliest swimming pond membrane on the market verified in accordance with EN 71-3. When welding, installers breathe in far fewer emissions than with competing products due to the low build-up of toxic gases when welding.
