ctx43 **FLOCCULANT DELUXE**

Removes particles from the water that make it cloudy.

· Clean and crystalline water.
· Rapid flocculation and continuous clarification
· Improved performance of disinfectant products.

CARTRIDGE	EFFICACY	POOLS WITH SKIMMER AND SAND FILTER	DOSAGE
	WEEKLY		1 up to 50m³

PROPERTIES

Appearance	Solid
Colour	White cream
Dissolution in the skimmer at 28° C	2 complete filtration cycle
pH of a 1% solution	5 max.

CHARACTERISTICS

Flocculant tablets have the property of forming floccules in the water at the filter inlet, these floccules are deposited on the surface of the filter load retaining all suspended particles found in the pool water.

INSTRUCTIONS FOR USE

Check that the pH of the pool is between 7.2 and 7.6. Once the pH has been adjusted, flush the filtration system and then place the necessary product cartridges inside the skimmer baskets.

DOSAGE

-Pools from 10 to 50 m3: 1 tablet of product every 10 days.
-Pools from 50 to 100 m3: 2 tablets of product every 10 days.
-Pools from 100 to 150 m3: 3 tablets of product every 10 days.

These doses are for guidance only and can be modified according to the characteristics of each pool, climate, etc.
