TABLET	EFFICACY	POOLS WITH SKIMMER AND SAND FILTER	DOSAGE
20g	8h		1 /20m³

PROPERTIES

Appearance	Solid in tablets
Colour	Yellowish white
pH (1%)	2,5 ± 1,0
Peso	20g

CHARACTERISTICS

Double-action polymeric product: “coagulant” and “flocculant”. It is especially formulated to obtain a higher efficiency in the filtration of water with the purifier system.

This product is a slow dissolution tablet that totally eliminates floating elements that are not kept by the filter. The result is complete transparency of the swimming pool water.The tablet swells when in contact with water creating a gelatinous mass that dissolves slowly to dose the necessary quantity of product to keep water clear.

In addition, it removes metal ions, such as iron and manganese, as well as organic matter. Xtreme Floc provides less soluble aluminum content, reduces the consumption of the products used in disinfection and does not clog the filters.

INSTRUCTIONS FOR USE

Check that the pH is well adjusted between 7.2 and 7.6 and proceed to backwash the filter. Subsequently, place the necessary tablets in the skimmer basket and if possible place it inside the skimmer so that it has a greater flow of water.

DOSAGE

Recovering treatment: Add 5 tablets of product in swimming pools not bigger than 100 m3 (cloudy water).

Maintenance treatment: Add 2 tablets of product in swimming pools not bigger than 100 m3 every week.

These doses are the ones suggested and can be modified according to the own characteristics of every swimming pool, climate, etc.
