ASTRALPOOL – **NATURAL FLOCCULANT**

Crystal clear water naturally

· Keeps water crystal clear
· Removes sun oils and cream deposits
· Improves the performance of salt chlorinators

CONCENTRATED LIQUID	DOSAGE BOTTLE	DURATION	ALL TYPES OF POOLS	DOSAGE
		Weekly		20ml / 25m³

PROPERTIES

Appearance	Liquid
Colour	Blue – Green or amber
Density	1,0 - 1,1 g/cm.^{3}
pH	3,0 – 4,5

CHARACTERISTICS

El ASTRALPOOL - 597 Natural Flocculant is a biodegradable product for clarifying cloudy water. It removes traces of body oils and/or creams, as well as organic matter and excess metals. Natural Flocculant is compatible with most disinfection treatments and reduces filter washing time while improving the performance of electrochlorinators. The ASTRALPOOL - 597 Natural Flocculant does not contain polyacrylamides.

INSTRUCTIONS FOR USE

1. Check the filter pressure (clean if necessary).
2. Pour the dose of product directly into the pool tank and spread evenly over the surface of the pool. No premixing is necessary.
3. Keep the filtration system running for at least six hours after adding the product.

The addition of the product should preferably be done at dusk and without the presence of swimmers in the pool water. The addition of the product should preferably be done at dusk and without the presence of swimmers in the pool water.

DOSAGE

Maintenance treatment:

Residential Pool: With the filtration equipment running and without the presence of bathers in the pool, add 40 ml of product per 50 m^3 of water every week.

Commercial or heavily used pool: Treat the pool water twice a week with a double or triple dose to the standard dose.

Recovery treatment (turbid water): For turbid water, double or triple the standard dosage.

These doses are for guidance only and may be modified according to the characteristics of each pool, climate, etc.
